FOR IMMEDIATE RELEASE

### **Liberty Valley Doors 117 kw Solar Generating Facility** Company looks to achieve 100% energy offset

Liberty Valley Doors has set the manufacturing standard by now being capable of producing all of their doors using the sun's energy. This state of the art solar system consisting of a roof mounted 89 kw system as well as a 27 kw ground mounted system Liberty Valley Doors will achieve 100% energy offset. The SunPower solar panels used are 50% more efficient than conventional panels. The financial assistance of the State incentive program administered by PG&E helped to make this project possible.

The commitment to going solar is just the latest action Liberty Valley Doors has taken to become the most sustainable door manufacturing company in the world. Other sustainable business operations implemented include but are not limited to a reduction in waste by over 80%, an employee recycling program, scrap wood is donated to the public and local schools, and began purchasing hybrid vehicles as company vehicles. Liberty Valley Doors hopes these actions will set an example and provide a blueprint for how to implement a sustainable business plan.

Liberty Valley Doors, established in 1980, is a custom stile and rail door manufacturer specializing in arched, custom designed doors, and FSC Chain of Custody Certified doors. LVD's updated web site contains multiple portfolios, door and pre hang details, standard specifications, company information and is a great starting point for any custom door project.

*Liberty Valley Doors is committed to accelerating the transition to sustainable building, energy, and economic practices. We believe sustainability is the ethical choice.*
